HOW I WORK

People First. Always.

A building sale is one transaction, but it affects every owner differently. For some, this is home. For others, it is an investment. My work begins with understanding those differences.

Individual attention

I will work with the board and offer individual owner conversations. My experience includes large-scale multifamily transactions and deals across the country.

Clear recommendations

Expect candid advice and regular updates. I will explain how offers compare on price, terms, financing, timing, and buyer credibility.

Establish the building's value.

Complimentary valuation.
A clear marketing process.
Evaluation of offers.

01 / THE SALE OPTIONS

Full-building sale first.

Analyze the property, reach qualified buyers, and evaluate offers for the full building.

PRIMARY PATH

Sell the full building

One transaction.
Two marketing approaches.

Full public marketing

List publicly, market broadly, respond to inquiries, and coordinate building showings.

ADVANTAGE

Wider exposure and buyer competition.

TRADEOFF

More public visibility and showing activity.

Confidential targeted outreach

Approach selected brokers, buyers, and institutions. Require an NDA/confidentiality agreement before sharing confidential materials. Confirm serious interest and financial ability before showings.

ADVANTAGE

A quieter process with controlled access.

TRADEOFF

A smaller buyer pool may limit competition.

SECONDARY OPTION

Voluntary group sale

Package only the units of owners who choose to sell together. Pricing depends on the units included; participating sellers agree on public or targeted outreach. Counsel reviews restrictions, governance, and control implications.

THE PROCESS

Gather records / Analyze the building / Market the property / Evaluate offers

Marketing does not approve a sale. Compare offers on price, terms, financing, timing, and buyer credibility; counsel guides required owner approvals.

02 / WHAT THIS MEANS FOR YOU

Different owners. Different priorities.

A useful comparison accounts for the financial and personal consequences.

If this is your home

Compare estimated net proceeds and future housing expenses with mortgage payments, taxes, insurance, dues, and potential assessments.

If this is an investment

Compare rental income, operating costs, future capital contributions, and net proceeds. Review individual tax consequences with your tax advisor.

STAYING OR MOVING

I can explore a lease with prospective buyers for owners who want to remain. Rent, duration, renewals, and protections must be negotiated. Staying is not guaranteed; renting may not cost less. A sale gives up ownership and future appreciation, and building costs still influence rent.

For owners who relocate, I plan to partner with a residential agent to help find their next home.

Ownership costs & unit financing

The lender reviews the building as well as the borrower. An appraisal alone does not establish project eligibility. Full-building buyer financing is evaluated separately.

AUGUST 3, 2026

Broader project review

Fannie Mae Limited Review and Freddie Mac Streamlined Review retired for covered applications. Applicable exceptions remain.

JANUARY 4, 2027

15% reserve standard

The standard rises from 10% to 15% of annual budgeted assessment income for covered applications. A qualifying reserve study may support an alternative.

Unresolved critical repairs can prevent eligibility. Maintenance or an assessment alone does not automatically disqualify a project. We will seek a lender review and use actual quotes for financing comparisons. The reserve rule is not an automatic 15% increase in dues.

Source review: September 25, 2026. No building-specific eligibility determination has been made.

03 / CLEAR TERMS

What it costs. What I need.

PROPOSED LISTING COMMISSION

1.25%

of the final sale price

Payable to my brokerage at closing. The fee reflects the scale of the transaction and my interest in a lasting relationship.

All brokerage compensation is negotiable and subject to written agreement.

Buyer-broker compensation

Buyer brokers should state their requested fee separately in the offer. Any seller-paid buyer-broker compensation is additional to my 1.25% and requires negotiation and written agreement.

Other closing costs

Transfer taxes, title charges, and legal fees are separate. Coordinated multi-unit closings may qualify for reduced title pricing; actual costs require confirmation.

The valuation checklist

Complimentary initial analysis; no listing agreement required. Provide what is available.

- 01 **Expenses:** 2025 and, ideally, January 1-September 1, 2026 operating expenses.
- 02 **Capital improvements:** Work completed in the last five years, plus planned or needed work and available costs.
- 03 **Building ages:** Roof, elevator, masonry, windows, and boiler.
- 04 **Maintenance:** Sprinkler updates needed and when the driveway was last paved.
- 05 **Current rents:** Unit numbers and monthly rents from willing owners. No tenant names needed.
- 06 **Current reserves:** Reserve balance, statement date, and latest available statement.
- 07 **Ownership / parcels:** Unit and parking ownership, parcel numbers, and voting shares. Resolve 66 parcels / 67 units against the declaration.

Supporting records: Budgets, reserve studies, insurance, minutes, assessments, inspections, and ownership documents. Management, counsel, and a lender should confirm building figures, approval requirements, and financing before owner distribution.
